

## Press Release No. 09/2016

Page 1/1

November 2016

### New Record: 1:32.9 min.

### M2 by AC Schnitzer is the fastest BMW M2 on the Sachsenring

Although AC Schnitzer vehicles feel at home in everyday use on public roads, they're also well-equipped for an excursion onto the race track.

And the fact that the M2 by AC Schnitzer can really get going (when you want) has recently been very impressively demonstrated.

The AC Schnitzer ACS2 Sport has now secured the title "Fastest BMW M2 on the Sachsenring". With a lap time of 1:32.9 minutes, the M2 by AC Schnitzer took first place ahead of its rivals.

The performance upgrade for the BMW M2 which - like all AC Schnitzer performance upgrades - comes with a 2-year warranty, delivers 309 kW/420 HP and increases the maximum torque to 580 Nm.

The AC Schnitzer RS coilover suspension - adjustable in ride height, compression and rebound - is perfectly matched to the wheel and tyre combination with forged alloys in 20-inch, specially developed for the M2. Complete with carbon aerodynamic components which provide the necessary downforce, the M2 by AC Schnitzer is a TÜV-approved complete concept in which all special accessories complement each other.

But naturally the product range for the M2 has been developed in the AC Schnitzer modular concept, where the customer is always on the safe side because he can select precisely the products he wants for his M2.

The enclosed overview shows everything AC Schnitzer offers for the M2.

Extract from the "Best Ever" list by AC Schnitzer (the complete list can be found at <http://www.ac-schnitzer.de/en/bmw-cars/about-us/records/>):
